Hardy Plants

For the Home Garden

W. A. TOOLE

Garry = nee = Dule

BARABOO

...

WISCONSIN

To Flower Lovers

Garry-nee-Dule (the Garden of the O'Tooles') located in the heart of the famous Wisconsin Dells-Devil's Lake region, sends you this brochure, showing, in a simple way, the offerings from its fields and greenhouses of Hardy Phlox, Larkspur, Columbines, Hollyhocks, and hundreds of other Hardy Perennials, planted, tested, acclimated and developed with the most painstaking care, and now ready to ship to you for **YOUR OWN HOME HARDY FLOWER GARDEN.**

Here at Garry-nee-Dule, we are common folks, who love our flowers. We've been growing and developing them for you, and other flower lovers, for almost half a century, and we're proud of the record for lasting friendships which our plants have made for us, and we shall continue to grow them through the years to come, because we love them---as we know you do.

Garry-nee-Dule is located two miles south of Baraboo, Wis., on what is called on the State Highway map, Trunk Line 12 but which we prefer to call "The Friendly Road," running between Baraboo and Madison. Should you be motoring through these parts we would be delighted to have you call at Garry-nee-Dule, and let us take you through our gardens.

Kindly consider this catalogue our invitation to become one of the thousands of Garry-nee-Dule flower lovers, if you are not yet one. You'll read it carefully, I hope, and whether amateur or seasoned grower, I trust it will guide you to my door.

With best wishes for a most glorious flower garden, through your skill and loving care, and with plants from Garry-nee-Dule.

W. A. TOOLE.

HARDY PLANTS FOR THE HOME GARDEN

MY CHOICEST SELECTIONS OF PERENNIALS
AND OTHER PLANTS

"Who that has loved knows not the tender tale
which flowers reveal, when lips are coy to tell."
Bulwer-Lytton.

W. A. TOOLE

Garry-nee-Dule

BARABOO, WISCONSIN

PRICES: The prices given are for strong plants, carefully packed and delivered at the Express or Post Office at Baraboo. Here my responsibility ceases, though I will always do all possible to secure satisfactory adjustment in case plants do not arrive in best of condition.

TERMS: I prefer cash with order, but if you wish to open an account with me, please send proper references.

GUARANTEE: I guarantee all plants and seeds to be true to name and of satisfactory quality. If mistakes should occur, let me know at once and I will do all possible to make satisfactory adjustment, however I will not be held liable for a greater sum than the original cost of the goods, plus carriage charges.

PARCEL POST: If you wish plants sent by parcel post, add ten percent to the amount sent for the plants. Any balance will be returned to you.

W. A. TOOLE.

HARDY PERENNIALS

Varieties best suited for Cut Flowers Marked *

*ACHILLEA (Milfoil)

***Ptarmica**, fl. pl., The Pearl. This charming white flower is very hardy, lasting for years without winter-killing and withstanding the drought admirably. It is a beautiful plant in the border and is especially good for cutting. When cut we find it very attractive when used in connection with the bright yellow *Heliopsis pitcheriana*, which flowers at the same season. Seedlings are sometimes offered, but as only a small percentage of these are double, true divided stock should be insisted on. Clusters of button-like white flowers on a good cutting stem. 2 ft. June to August.

***Millefolium Roseum**. Rose pink flowers, in dense heads. Good for cutting. 18 inches high, flowers most of the summer.

AGROSTEMMA (Rose Campion or Mullein Pink)

Coronaria. Rosy crimson, flowers in July. Silvery leaves covered with down. 18-30 inches. Do well in dry places.

ALYSSUM (Rock Madwort)

Saxatile Compactum, Gold Dust. Golden yellow, flowers in April and early May. 8-12 inches. Good for rockery or front border.

ANCHUSA (Sea Bugloss)

Italica, Dropmore Variety. Rich gentian blue. This flowers in June before the Delphiniums and when other blue flowers are scarce. Not suited for cutting because the flowers drop. 3-5 feet high.

Italica, Opal. Much the same as Dropmore variety but the flowers are of a lighter blue.

*ANTHEMIS

Tinctoria Kelwayii. This is a hardy yellow marguerite or daisy that is showy in the border and good for cut flowers. Very hardy and does well in poor soil. 15-24 inches. Flowers most of the summer if not allowed to seed.

ARTEMESIA

***Lactiflora**. Panicles of creamy white flowers, most ornamental when in bud. Of some value for cutting, and distinct and ornamental in hardy border. August-September. 3½ to 4½ feet.

Abrotanum. Old Man of Southernwood. Fragrant, finely cut foliage. A true "old fashioned" plant.

PRICES: Unless otherwise noted, prices for plants on this page are 25 cents each, \$2.50 per doz., \$15.00 per hundred.

Cut Flower Collection

This collection has been carefully selected to supply a succession of flowers suitable for cutting over a large part of the season.

12 different kinds,	12
choice plants	\$ 2.50
25 different kinds,	25
choice plants	5.00
60 plants, 25 or more different kinds	8.00

Columbine Long Spurred Hybrid

***Rose Queen.** A long spurred variety with rose colored flowers and spurs and a white or creamy center. There is some variation in shades but all are beautiful. Apparently a variation of *A. Coerulea*. One year old plants.

ASTER (Michaelmas Daisy)

Acris. Forming a dense mass of small, light blue flowers, in September. 24 inches high.

Novae Angliae, New England Aster. Mixed seedlings in many shades of purple, lavender, red and pink, which are the result of many years of selection and experiment of Wm. Toole, Sr. 4-6 feet. Flowers in Sept.

Lil. Fardell, a bright red aster of the *Novae Angliae* type. 4-6 feet. Sept.

Pink and Red Flowers

Maybe your Hardy Garden needs a splash of pink or bright red to brighten it up here and there. If so, try this collection of choice varieties.

12 different kinds for...\$ 2.50

5 plants of each kind, 60
in all, for..... 10.00

AQUILEGIA (Columbine)

***Long Spurred Hybrids.** Beautiful flowers in many shades and colors, all with long, graceful spurs on the flowers. These are the most admired of the Columbines. These and other Columbines are suitable for cutting as well as the rockery or border. They are often in flower by Memorial Day with us. 18-24 inches. May and June.

***Chrysantha.** Bright yellow, long spurred flowers. The latest to flower and the tallest growing of the Columbines. 30-36 inches. June and scattering flowers all summer.

***Chrysantha Alba.** Long spurred white variety.

***Helena.** Large blue flowers with a white corolla. 18 inches.

***Coerulea.** Rocky Mountain Columbine. This beautiful, long spurred blue and white variety is a general favorite.

Novae Belgii, Climax. A very large flowered, light blue aster. One of the few hardy asters suitable for cutting as well as the border. Small plants, very attractive for decorative effect when potted. 4-5 feet. September. 35 cents each, \$3.50 dozen.

White Climax. Same as above, but flowers are white. 35 cents each, \$3.50 per dozen.

Glory of Colwall. Semi-double, light lavender blue flowers. 4 feet. September. 35 cents each, \$3.50 per dozen.

PRICES: Unless otherwise noted, prices for plants on this page are 25 cents each, \$2.50 per dozen, \$15.00 per hundred.

BAPTISIA (False Indigo)

Australis. Blue pea-shaped flower, much resembling Lupines, 35 cents each.

BOCCONIA (Plume Poppy)

Cordata, Tree Celandine. The large light green leaves give a striking effect where a bold subject is desired. Buff colored panicles of flowers in June and July. 5 to 8 feet high. 35 cents each, \$3.50 per dozen.

BOLTONIA (False Chamomile)

***Asteroides.** This beautiful plant flowers about the same time as the wild asters and looks very much like them. The flowers are somewhat useful for cutting though the petals have a tendency to curl up if not handled carefully. Its greatest value is as a plant in the border where in September a mass of it in bloom looks like a snow bank. To keep the Boltonia in good condition clumps should be divided and reset every spring or at least every other year. Handled in this way they will last for years. Color, white. 5-6 feet. Blossoms in September. Divisions.

Latisquama. The growth of this species is a little more upright than Asteroides and the flowers slightly larger. The color is lavender pink, about the shade of an America Gladiolus. It will stand up as a cut flower fairly well, better than Asteroides, and is quite useful as a cut flower on some occasions. As a border plant it gives a beautiful variety. Lavender pink. 3-5 feet. September-October. Divisions.

BUDDLEIA (Summer Lilac)

***Variabilis Magnifica.** Lilac colored panicles 4 to 6 inches long. Blossoms from July to September. Really a shrub in character. Best results are obtained by starting young plants from cutting each spring in greenhouse. Very suitable for cutting.

CAMPANULA

***Medium. (Canterbury Bells).** These are biennials. They make a brilliant show in the garden and are also gently forced in the greenhouse for spring pot plants. Valuable for cutting. Strong plants, mixed colors.

***Medium Calycanthema (Cup and Saucer).** Mixed colors. Beautiful form of Campanula Medium but do not force so successfully.

Carpatia (Carpathian Hare Bell). Compact tufted plants, about 9 inches tall. Flowers from June to August. Color, blue. For rockery or front of border.

***Persicaefolia Alba (Peach Bells).** The waxy white flowers of this variety are most valuable for cutting, as well as attractive in the border.

***Pyramidalis (Chimney Bellflower).** Blue flowers on tall pyramid-shaped stalks, growing 4 to 6 feet high. Flowers in July.

PRICES: Unless otherwise noted, prices for plants on this page are 25 cents each, \$2.50 per dozen, \$15.00 per hundred.

**"Peacemaker" Collection of
Hardy Perennials**

White flowers are sometimes called the peacemakers of the garden. Perhaps you have colors that clash. Separate them with a suitable white flowering variety and they will fight no more.

A dozen white flowering kinds that will provide a succession of flowers, from early to late....\$ 2.50

5 plants of each kind, 60 in all, for..... 10.00

CENTAUREA (Cornflower)

***Macrocephala (Great Knapweed)**. Large yellow flowers giving a striking effect. Bushy plants, 3 to 4 feet high, flowering in July.

CHRYSANTHEMUM (Moonpenny Daisies)

As a class, white daisies are one of the most useful flowers for growers. They are free-flowering, lend themselves well to a great variety of artistic decorative uses and nearly everybody loves daisies. By planting some of each kind of daisies we offer, flowers may be had from latter part of May to September.

Latifolium. Flowers here early in July, soon after the June Marguerite is past its prime, and if given reasonable care will supply cut flowers till into September. Grows 3 to 4 feet high, and makes quite a bushy plant. Flowers not quite so large as Shasta Daisy, but the stems are stiffer. Hardier than Shasta Daisy. This is not a new variety but its full value does not seem to be appreciated. Stands hot weather well.

***Leucanthemum (Memorial Daisy)**. Usually in flower in this latitude by Memorial Day. Can be had in flower before that date by growing in a protected position or in a deep frame. When forced moderately it blooms freely in March. Very hardy, flowers freely on long stems. Not so large as Shasta Daisy, but desirable because of its earliness. White daisy, yellow center.

**"SUNNY COLLECTION
OF HARDY PLANTS**

Perhaps you love brightness and sunshine? Then this collection of a dozen different yellow flowering Hardy Plants will appeal to you.

12 strong plants with yellow flowers, all different, for\$ 2.50

5 of each kind, 60 plants in all, for 10.00

***Maximum (June Marguerite)**. This variety is valuable because it fills in the gap between the Memorial Daisy and the Shasta Daisy, thus providing a continuous succession of daisies for weeks. There is no flower better known than the Daisy and they are easily grown. The kinds we list will give you Daisy flowers from late May to August. We strongly recommend to our friends our varieties of Daisies. They are favorites with us and we believe will be favorites with you.

PLANTS FREE FOR GOOD PHOTOS

I will give plant premiums for good photos of Garry-nee-Dule Plants in your OWN Garden. Only clear good photographs can be used. For such as are available I will give you credit of \$1.50 for each photograph on any order of \$3.00 or over. **W. A. TOOLE.**

PLANTS FREE FOR GOOD PHOTOS

PRICES: Unless otherwise noted, prices for plants on this page are 25 cents each, \$2.50 per dozen, \$15.00 per hundred.

***Shasta Daisy Alaska.** The Shasta Daisy is very well known to all flower lovers. It was originated by Luther Burbank. Large white flowers with yellow centers. July. 18-24 inches.

CERASTIUM (Snow in Summer)

Tomentosum. A low-growing border plant, covered with a mass of white flowers the last of May and early June. The hairy silver colored leaves are very attractive all summer. Desirable for the front of the border and much used as an underplanting with Darwin Tulips.

COREOPSIS (Tickseed)

***Lanceolata.** One of the most useful Hardy Plants for cut flowers. If not allowed to form seeds it will keep up a succession of flowers for cutting from June through most of the summer. It is easily hardy for the first winter and will often live for a number of years

Coreopsis

spikes of flowers bloom more often than other varieties which makes it the best suited for cut flowers. Beautiful sky blue, 30-40 inches. June to frost.

PRICES: Unless otherwise noted, prices for plants on this page are 25 cents each, \$2.50 per dozen, \$15.00 per hundred.

Shasta Daisy Alaska

if not allowed to form seeds. It gives clean cutting stems 12-16 inches long and the flowers are held well erect on the stems. Bright yellow. Two to three feet. June to August. Heavy plants.

***DELPHINIUM (Larkspur)**

Probably there is no one flower that seems so essential in the Hardy Garden as the Delphinium in its many varieties. The range of color is from white through many shades of blue to purple. They give just the touch of stateliness and dignity which makes the Hardy Garden so attractive.

Belladonna (Everblooming Larkspur). If supplied with plenty of moisture often flowers three times during summer. The

Delphinium, Gold Medal Hybrids

part with dark centers and part with light centers. Strong plants that have flowered, ⁷⁵~~50~~ cents each, 3 for ~~\$2.00~~ ^{\$5.00} per doz.

Gold Medal Hybrids. This strain of Hybrids has been carefully selected and developed by Mr. Wm. Toole, Sr., for several years. The colors range from nearly white to shades of blue and purple. Many of the flowers are beautifully touched with pink. Some are single and some come double and all are very beautiful. Mixed colors only.

Formosum. Beautiful deep blue flowers with a touch of white in the center.

Moerheimii. A pure white variety with much the same character of growth of Belladonna. 50 cents each, \$5.00 dozen.

White Hybrids. For several years Wm. Toole, Sr., has been growing and selecting seedlings started originally from a white flowered plant found growing among some Delphinium Formosum. We are offering a few for sale for the first time, believing they will be an addition of merit to any Hardy Garden. In habit of growth they are much like Formosum. While they are classed as white, hardly any two are exactly alike, as some are creamy white, some pure white, a

DIANTHUS (Pinks)

***Barbatus (Sweet William).** This is one of the old favorites of the Old Fashioned Garden. With care it will last as a true perennial but is generally grown as a biennial. Some of the solid color kinds such as Newport Pink, white and scarlet, are useful as cut flowers and no really Old Fashioned Garden is complete without a row or group of Sweet William.

Mixed Colors.

***Newport Pink.** Watermelon Pink.

***White.**

***Scarlet.**

Latifolius Atrococcineus.

***Plumarius (Hardy Garden Pink).** Beautiful clove scented flowers in white and many shades of pink. Profuse bloomers, which are useful for cutting as well as furnishing a bright spot in the Hardy Garden during June. Mixed colors, double and single.

PRICES: Unless otherwise noted, prices for plants on this page are 25 cents each, \$2.50 per dozen, \$15.00 per hundred.

BLUE PERENNIALS

Perhaps you are especially fond of blue flowers and would have a succession of these in a corner of your garden all summer long. Then send for our collection of a dozen blue perennials that will flower in succession thru most of the summer.

12 varieties for\$ 2.50

5 of each, 60 plants 10.00

***Her Majesty.** A pure white variety of Hardy Garden Pink.

***Homer.** A double deep pink variety, with darker center.

DIANTHUS ALWOODI

We are very fortunate in having a good stock of some of the best varieties of this new Hardy Garden Carnation.

Dianthus Alwoodi is the result of the crossing of the greenhouse Carnation and the Grass Pink. It was first introduced by Alwood Brothers of England. While not as hardy as the Grass Pink, it will come through our winters with protec-

tion. While the Grass Pink flowers only in June, **Dianthus Alwoodi** flowers all summer and is especially valuable in that it gives a supply of fine flowers when the greenhouse Carnations are not blossoming. When disbudded same as Carnations they make a strong stem 12-16 inches long outdoors. We have a very nice stock of the following varieties:

Robert. Semi-double Pink, with darker eye. Strongest grower and the freeseest bloomer of the lot.

Mary. Carmine pink, with darker eye.

Harold. Pure white.

Jean. White, purple violet center.

Phyllis. Pale pink, strongly scented.

Prices of **Dianthus Alwoodi**, any variety, from pots, 35 cents each, \$3.50 dozen. One each of the five kinds for \$1.50. We have a few very heavy field plants of **Robert**, **Mary**, **Harold** and **Jean** at \$1.00 each or one each of the four for \$3.00.

DIGITALIS (Foxglove)

Gloxinaeflora. Because of its stately beauty the Foxglove, as is the case with the Hollyhocks, is almost symbolical of the Old Fashioned Garden. Perennial with care in milder climates but biennial with us. Sometimes the stems are cut but the flowers droop just a little after cutting which spoils the stately effect. In mixed colors.

DORONICUM (Leopard's Bane)

Excelsum. Bright yellow daisy-like flowers in late May and June and scattering through summer.

PRICES: Unless otherwise noted prices for plants on this page are 25 cents each, \$2.50 per dozen, \$15.00 per 100.

Our Garry-nee-Dule Collection of Hardy Plants

Our Garry-nee-Dule Collection of Hardy Perennials is a selection of 12 varieties that we consider among the finest and most desirable that are reasonably hardy in this climate. We believe you will be pleased with this collection if you want some very choice varieties to start your Hardy Garden.

12 different varieties.....\$ 2.50

5 plants each of 12 varieties, 60 in all.... 10.00

DODECATHEON (American Cowslip)

Media (Shooting Star). Heads of flowers much resembling small Cyclamen. Some plants have clear white flowers while others are tinted with pink. 10-16 inches. May and June.

ECHINOPS (Globe Thistle)

Sphaerocephalus. Coarse thistlelike plants with round heads of pale blue flowers. Flowers sometimes used in dried bouquets. Five feet high. July and August.

ERYNGIUM (Sea Holly)

***Amethystinum.** Steel blue flowers and stems. Something different for the border. Sometimes cut and dried for winter bouquets.

GAILLARDIA (Blanket Flower)

Gaillardia

***Grandiflora.** One of the most desirable of Hardy Plants as it is one of the few perennials that flower all summer. Flowers in different combinations of yellow, orange, maroon, and red. Invaluable for cutting. Strong plants.

GEUM (Avens).

Atrosanguineum. Blood red flowers in open heads. June and July. 1 foot.

HARDY FERNS

We are offering two varieties of Hardy Ferns though it is possible to collect over 30 varieties around here. These two kinds are among the most beautiful and are not difficult to grow if given some shade and protected from winds that batter the tender foliage.

Adiantum Pedantum (Maiden Hair Fern).

Nice strong clumps of this beautiful Hardy Fern.

Asplenium felix foeminal (Lady Fern).

GYPSOPHILA (Baby's Breath)

***Paniculata.** Single. Tiny white flowers giving a mist-like effect. Is useful in summertime to use with other cut flowers, as Stevia is in winter. July.

HARDY GRASS

Phalaris Arundinacea Variegata (Gardner's Garter). Large variegated foliage in heavy clumps.

HELIANTHUS (Perennial Sunflower)

***Miss Mellish.** Semi-double.

***Orgyalis.** Willow leaved Sunflower. Canary yellow.

***Wolly Dodd.** Deep yellow flowers.

HEUCHERA (Coral Bells)

Sanguinea (Walker's Variety). Bright coral red flowers on slender stems. 12-18 in. June-July. 50 cents each, \$5.00 dozen.

Collection of Rock Plants

For those who desire to start a rockery we offer a dozen different kinds suitable for planting in a Sunny Rock Garden for\$ 2.50

PRICES: Unless otherwise noted, prices for plants on this page are 25 cents each, \$2.50 per dozen, \$15.00 per hundred.

HOLLYHOCKS

No garden seems complete without a row of Hollyhocks somewhere. Appear to best advantage if backed up by a fence or building.

Double. In white, pink, yellow, red or mixed colors.

Single. All colors mixed, or white, pink or yellow separate.

LATHYRUS (Perennial Sweet Pea)

***Latifolius.** Easily grown, will do well in the shade. Flowers not so sweet scented as Sweet Pea. Mixed colors, white, pink, and rose. 6 ft. Flowers July and August.

LINUM (Flax)

***Perenne.** During late spring and early summer a group of these will be a mass of blue in the morning, the flowers dropping about ten o'clock revealing the beautiful foliage, to be followed by another mass of blue the next morning. For the border or rockery. Height 2 feet.

LYCHNIS (Campion)

***Chalcedonia.** Heads of brilliant scarlet flowers that are very striking. Combined with white Achillea and the blue Delphinium the cut stems an ideal patriotic bouquet on July 4. Blossoms in July. Two to three feet.

MYOSOTIS

Forget-Me-Not. Sky blue.

MONARDA (Oswego Tea)

Didyma, Scarlet.

Didyma Violecia.

MENTHA (Mint)

Spicata. Spearmint.

Catarea. Catnip.

IRIS (Fleur de Lis)

An old favorite that now may be had in a multitude of new shades and colors. Beautiful when in flower in May and June, and because of its foliage, effective in the border all summer.

Candicans. Soft, light blue.

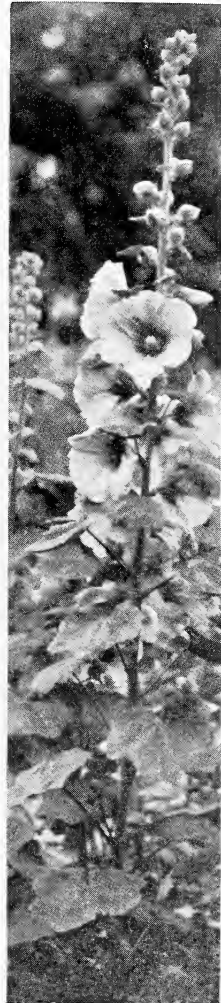

Celeste. Pale azure blue.

Flavescens. Soft yellow.

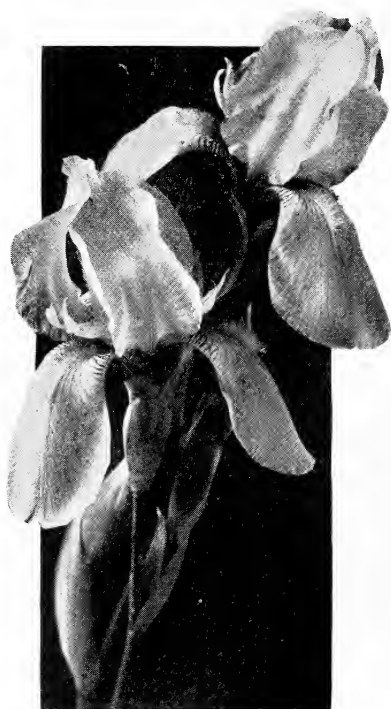

Florentina alba. Silver King. White, flushed lavender, early.

Helge. Intermediate. Lemon yellow.

PRICES: Unless otherwise noted, prices for plants on this page are 25 cents each, \$2.50 per dozen, \$15.00 per hundred.

Hollyhocks

Iris

Sibirica Orientalis. Brilliant blue.

Sibirica Alba. Ivory white.

Prices of Iris, unless otherwise noted, 15 cents each, \$1.50 per dozen. One of each of above 17 kinds, \$2.25.

PAPAVER (Poppy)

**Nudicaule*. Mixed colors.

**Orientalis*. Oriental Poppy. Scarlet.

Gerald Perry. Salmon pink.

Goliath. Fiery scarlet.

Mrs. Perry. Salmon rose.

Perry's White. White with crimson maroon blotch at base of each petal. 35 cents each, \$3.50 dozen for above four. One plant each of above four named varieties of Oriental Poppies, \$1.00.

*IRIS (Continued)

Honorabilis. S. Golden. F. Mahogany brown.

Lohengrin. Soft shade of cattleya rose. 25 cents each, \$2.50 dozen.

Loreley. S. Light yellow. F. blue bordered cream.

Madam Chereau. White frilled with blue.

Mrs. H. Darwin. S. white. F. violet at base.

Pallida Dalmatica. S. and F. lavender. 25 cents each, \$2.50 dozen.

Pumilla Cyanea. Very early. S. rich bright blue. F. darker blue.

Rhein Nixie. S. white. F. violet blue, white edge. 25 cents ea., \$2.50 doz.

Sherwin Wrightt. Rich golden yellow. 35 cents each, \$3.50 dozen.

Walhalla. Intermediate. S. lavender. F. wine red.

PRICES: Unless otherwise noted, prices for plants on this page are 25 cents each, \$2.50 per dozen, \$15.00 per hundred.

PENSTEMON (Beard Tongue)

***Barbatus Torreyii.** Tall spikes of brilliant scarlet flowers that make a striking appearance in the border during June to August. Grows to a height of 3 to 4 feet. The flowers make a distinct and pleasing effect when used for decorative purposes.

PHLOX

We grow many thousands of these beautiful and popular hardy plants and offer the following varieties which are the choicest of the many hundreds of kinds with which we are acquainted.

A Mass Planting of White Phlox

- B. Compte.** Brilliant French purple.
Europea. Large white, crimson carmine eye.
Elizabeth Campbell. Bright salmon pink.
Gefion. Peach blossom pink.
Hyon. Reddish pink.
Miss Lingard. Early white, with delicate pink eye.
Mrs. Jenkins. Best all around pure white.
Rynstrom. Carmine rose.

PRICES: Unless otherwise noted, prices on this page are 25 cents each, \$2.50 per dozen, \$15.00 per hundred.

**Collection of Hardy Plants
for Shade**

So many people hesitate about planting a Hardy Garden because they do not know which kinds will flower in partial shade. For these we offer a special collection of a dozen different kinds that flower in partial shade in very satisfactory manner.
 One each of 12 kinds....\$ 2.50
 5 each of 12 kinds, 60.... 10.00

WHAT DOES IT MEAN?

Perhaps you are curious as to the origin and meaning of the name of our farm, "Garry-nee-Dule." It is simply the phonetic spelling of the Gaelic for "Garden of the O'Tooles." It is the name of our farm, and the name of our Airdale dog, and is used as a special mark of distinction in connection with varieties of special merit among our plants. It is our guarantee of quality.

under cultivation, continues for several weeks. Masses of brilliant rosy carmine flowers. Strong 2 year field clumps.

Subulata. Moss pink, mixed colors.

R. P. Struthers. Bright rose carmine, red eye.

Siebold. Orange scarlet, crimson center.

Thor. Deep salmon pink, red eye.

Von Lassburg. Very large, pure white flowers.

One each of above 12 varieties of Phlox for \$2.50.

OTHER PHLOXES

Divaricata. Our native wood Phlox. Fragrant lavender flowers during May.

Divaricata Alba. A white flowering form of the above.

Plosa (Prairie Phlox). A native in open places. Prairie Phlox flowers somewhat later than the Woods Phlox and,

PEONY

Peonies shipped only during September and October. If interested, send for our special list of these.

PHYSOSTEGIA (False Dragon Head)

***Virginica.** Flowers bright, soft pink in midsummer. Plants 4-6 feet. Valuable for cutting.

PLATYCODON (Balloon Flower)

Grandiflorum. Closely related to the Campanulas. Blue or white. July: 24-30 inches.

POLEMONIUM (Jacob's Ladder)

Reptans. Another of the valuable native perennials which surprise one by thriving so much better under good garden culture than in its native haunts. Spikes of showy, blue bell-shaped flowers in May and June. About 1 foot high. May also be forced as a pot plant in the greenhouse during winter.

PYRETHRUM

***Roseum Hybridum (Persian Daisies).** Very hardy and one of the choicest of perennials. The fernlike foliage is attractive when the plants are not in bloom and the beautiful flowers ranging from pure white through shades of pink to deep crimson are beautiful on the plant or as cut flowers. They flower the last of May and through June.

***Uliginosum.** Giant white. This is one of the most striking perennials during late summer and fall when the plants are covered with large white flowers. 3-4 feet. Strong plants.

RANUNCULUS (Buttercup)

Acris, fl. pl. (Bachelor's Buttons). Very pretty double yellow flowers on stems 16-18 inches high. May and June. Some of the old flower lovers who named our plants seemed to have been partial to the needs of bachelors but surely the poor creatures need all the consideration they are likely to get.

PRICES: Unless otherwise noted, prices for plants on this page are 25 cents each, \$2.50 per dozen, \$15.00 per hundred.

Persian Daisy

TALL COLLECTION OF HARDY PERENNIALS

Perhaps you wish some of the taller growing kinds of Hardy Plants for a screen or to use in the back of your border. This collection contains varieties growing over three feet high. They flower from August to the end of the season.

12 different kinds, our selection	\$ 2.50
5 plants each of 12 kinds	10.00

MEDIUM COLLECTION OF HARDY PERENNIALS

The varieties in this collection grow from one to three feet high.

12 kinds, our selection	\$ 2.50
5 plants each of 12 kinds	10.00

RUDBECKIA

***Purpurea.** Purple cone flower.

***Hirta (Black-Eyed Susan).** A native here but the plants we offer are strong nursery grown. The botanics classify it as a biennial but we find it perennial in character under cultivation.

***Newmanii.** Much like the preceding in appearance but does not start to flower till just as the *Rudbeckia Hirta* is about through.

Triloba. A biennial that is very useful for planting in wild corners. Self sows freely. Medium yellow, flowers very freely. 3-4 feet. September.

SAPONARIA (Soapwort)

Oxymoides. Dwarf creeping habit, rosy crimson flowers. 6-9 inches. Flowers June and July. Good for rockery or edging.

SEDUM (Stonecrop)

Acre. Foliage green, flowers bright yellow. For rockery or grave covering.

Spectabile. One of the best of the erect growing kinds. Large heads of showy rose-colored flowers during September and October.

***Spectabile Brilliant.** Like the preceding except that flowers are bright red.

SIDALCEA (Greek Mallow)

***Candida.** Pure white flowers on erect spikes about 30 inches tall. June and July.

***Rosea.** Rose pink flowers, a week or ten days later than *Candida*. 2 1-2 -3 feet. June and July.

SILPHIUM (Rosin Weed)

Laciniatum. Compass plant. 6 feet. September.

SOLIDAGO (Golden Rod)

Canadensis. Golden yellow flows, August. 4 feet.

SPIREA (Goat's Beard)

Ulmaria, fl. pl. Double creamy white flowers.

SWEET WILLIAM

*See *Dianthus Barbatus*.

PRICES: Unless otherwise noted, prices for plants on this page are 25 cents each, \$2.50 per dozen, \$15.00 per hundred.

TRADESCANTIA (Spiderwort)

Virginiana L. Green. Leaves flat linear or lance linear, the upper more or less pubescent. Bracts leaflike, elongated, usually ascending; pedicels and sepals villous, the latter about 1.5 c. m. long; petals rich purplish-blue, 1.6-2 c. m. long. Alluvial soil, Connecticut to Pennsylvania and South Carolina. Also introduced northwest.

What do you think of the above description of one of our prettiest native perennials? Doesn't mean much to you, does it? Well, that is the way

A DOZEN DAISIES

Everybody loves a daisy, so we offer a dozen different kinds of daisy-like flowers in white, pink, purple, and yellow for\$ 2.50

5 plants of each kind .. 10.00

it reads in the botany and I suppose all our beautiful flower catalogs would read the same way if written with "scientific accuracy."

STATICE (Great Sea Lavender)

Latifolia. Large flat heads of tiny purplish pink flowers. May be dried and kept for months. August-September. 18-24 in. 35 cents each, \$3.50 doz.

VERONICA (Speedwell)

Spicata. A valuable border plant. Long spikes of bright blue flowers in July.

VINCA (Ground Myrtle)

Minor. Evergreen trailing plant, used for carpeting on graves or under trees.

VIOLA

***Cornuta G. Wermig (Summer Violet).** Resembles the single purple violet very closely and much used for bunches after violet season is over in England. 2 1-2 inch pot plants.

Hardy English Violet. Double blue, sweet scented.

YUCCA (Adams' Needle).

Filamentosa. The swordlike foliage is very distinct and attractive.

TOOLE'S COLLECTION OF HARDY PLANTS

For those not well acquainted with the differnt kinds of Hardy Plants we offer the following collections, each plant labeled, and all good, strong plants:

12 diferent kinds, our selection	\$ 2.50
24 different kinds and varieties, our selection.....	5.00
60 different kinds and varieties, our selection	10.00
100 different kinds and varieties, our selection.....	15.00

Pansy Plants

Pansies have long been a specialty with us and we believe our Garry-nee-Dule strain is distinct in richness of coloring and pleasing form of flowers. Strong transplanted plants in bud and bloom, April 15 to June 1, 75 cents per dozen, \$5.00 per 100.

Garry-nee-Dule Pansy Seeds

For half a century Pansies have been a specialty of my father, Wm. Toole, Sr., and my earliest recollections are of his beautiful fields of Pansies.

My Garry-nee-Dule Strain of Pansies is the result of these many years of painstaking and loving selection of the finest variations among hundreds of thousands of plants. Our aim is to supply the richest and most beautiful of shades and colorings, combined with a pleasing form of flower, heavy velvety petals, and a sturdy, healthy plant.

The name, "Garry-nee-Dule" applied to any of my products is a guarantee of superior quality.

Prices of my Garry-nee-Dule Strain of Pansy Seed are: pkt. of 100 seeds, 10 cents; 300 seeds, 25 cents; 1-8 oz., or about 3000 seeds, \$1.50.

Annual Garden Plants

	Ea.	Doz.
<i>Ageratum</i> . Blue or white.10	1.00
<i>Alyssum</i> . Single05	.50

Ornamental Shrubbery

For the convenience of our customers we are offering a limited list of the more popular shrubs. If ordered a little in advance of the time wanted for shipping we can usually procure any variety desired, at a reasonable price.

Strong, Bushy Shrubs, 2-3 Feet

	Ea.	Doz.
<i>Berberis Thunbergii</i>50	5.00
<i>Lonicera Morrowii</i>50	5.00
<i>Philadelphus Coronarius</i>50	5.00
<i>Rosa Rugosa</i>50	5.00
<i>Spirea van Houttei</i>50	5.00
<i>Common Lilac</i>50	5.00
<i>White Lilac</i>60	6.00
<i>Hydrangea paniculata</i> g. a.	1.00	
<i>Hydrangea arborescens</i>75	7.50
<i>Old English Moss Rose</i>	1.00	

The original stock of this rose was brought from Ireland by friends of the family about 75 years ago, and has followed the family fortunes in various parts of the country ever since. It is not a hearty grower but still stands lots of abuse. The flowers are a beautiful pink, and the buds are more freely mossed than any other Moss Rose. We have a limited stock of this Rose from 5-inch pots which we offer at \$1.00 each.
